Mike,

That's great, thank you. ASPECT is such a valuable asset!

Do you know if Chief Royal is aware of the continued ASPECT flights? Getting this data? If not, we need to make sure he's in the loop. Thanks again.

Subject: Update on Arkema Facility

All:

EPA is now flying the Aspect plane over the Arkema facility on regular intervals (approximately every 30 minutes). We have started to detect peroxide releases. We will keep Aspect in the area and continue to do flyover monitoring on the same schedule (or more often if needed) until the threat is over.

Thanks.
